## Sheffield-Based "imoves" Earns International Recognition in the HundrED Global Collection 2024 - Sheffield, United Kingdom – 2nd November 2023

imoves Active Education Ltd, the Sheffield-born PE company is making huge waves in active learning and is elated to announce its selection as one of the **top 100 educational innovations in the HundrED Global Collection for 2024**.

This selection is a recognition of the programmes significant impact and scalability on an international stage, marking an important milestone in its mission to transform education. With an ethos that thrives on fostering children's growth through movement and activity, imoves has carved out a niche that resonates with educational standards of excellence worldwide. The HundrED organisation, with its commitment to a global community and enriching educational practices, **has acknowledged the potential imoves holds to reshape the educational landscape internationally.**

*"It's amazing! We're in the HundrED Global Collection 2024, and it's a big shout-out to everyone who's been on this journey with us – especially our partners,"* shared a delighted Imogen Buxton-Pickles, the creative spark of imoves Active Education.

"Our mission of enhancing learning through movement has truly resonated worldwide. This accolade is a testament to the magic we create together, igniting a passion for learning in everyone, not just the kids. Cheers to more active learning adventures!"

As imoves embarks on this exciting chapter, the team extends its heartfelt gratitude to its partners for their unwavering support, not just in our PE programme but now in our Active Schools programme too. This acknowledgment from HundrED reaffirms the belief that innovative educational practices, like those cultivated in imoves, have the power to influence learners and educators far beyond their local environments.

The team at imoves is eager to continue this collaboration with its partners in active learning and PE, scaling new heights and bringing the joy of being active to children and educators around the globe.
